EXPERIENCE

VERTICA | SYSTEMS SOFTWARE ENGINEER | QUERY ENGINE

Aug 2015 – Present | Cambridge, MA

- Implemented key features for the Query Engine Optimizer and Catalog. Lead the company wide transition from SVN to Git. Implemented the internal dashboard for tracking internal test results which is now widely used.
- Founded and lead the company wide academic research paper reading group. Group met weekly for > 1year.
- Co-Chair for DataGals, the company wide networking group for Women in Technical Career Paths. Delivered keynote at the Lady Problems Hackathon series in San Francisco in 2016 representing DataGals.

WAYFAIR | SOFTWARE ENGINEERING INTERN

Jun 2014 – Aug 2014 | Boston, MA

- Created four loaders for bulk insertion of data. Improved run time of process by a factor of 3 by optimizing SQL execution plans.
- Won the Most Ingenious award at the Wayfair 2014 Hackathon for developing a web platform that enables scheduling for large groups.
- Named Campus Ambassador for Harvard University.

HARVARD UNIVERSITY DEPARTMENT OF COMPUTER SCIENCE CAMBRIDGE | CS51 TEACHING FELLOW

Jan 2013 – May 2013 | Cambridge, MA

- Lead weekly 1.5-hour sections, covering functional and object oriented programming, recursion, complexity, module and object abstraction, unit testing and design patterns. Graded problem sets, mentored students on final projects and staffed office hours.

RESEARCH

HARVARD DATA SYSTEMS LABORATORY | UNDERGRADUATE RESEARCHER

Sept 2014 – May 2015 | Cambridge, MA

Worked with Prof Stratos Idreos on just-in-time code generation for query optimization in column store databases. Named finalist in SIGMOD 2015 Undergraduate Poster Competition for my research.
